Series: Oh

Height: 21.2 cm

Diameter: 13.2 cm

Material: stainless steel housing with integrated plastic cooling ring

Christofle, Oh, wine cooler

The wine cooler made from high-quality, polished stainless steel is 21.2 cm high and has a diameter of 13.2 cm. It is part of the modern Oh series by Christofle which, inspired by nautical worlds, combines contemporary design with simple functionality. The circular cutouts on both sides of the cooler not only serve as a maritime design element symbolizing portholes. They also allow the wine to be carried more easily. A particularly practical feature is the removable plastic cooling ring, which is concealed inside the cooler by a ring of stainless steel. Whether it's on boat trips or at garden parties, this cooler enables the stylish cooling and serving of wine and other beverages. The wine cooler can also be ideally complemented with other products from the series, such as a tray.

About Christofle

Whether it's in the garden, on the terrace or on the boat – the Oh de Christofle series makes every outdoor experience a stylish success. Clear lines and contemporary design meet maritime details. The round handles are reminiscent of eyelets or portholes of prestigious yachts. This design feature also makes the products particularly functional. As a result, in yet another series, Christofle again creates the perfect synergy of outstanding forms with easy handling and, in the spirit of the name of the collection, leaves an enthusiastic "Oh".

The traditional French company Christofle is a master in the processing of silver. With passionate craftsmanship and perfection, the luxury brand produces exclusive cutlery, as well as tableware, jewelry, accessories, barware and home decoration in its manufactory in Yainville in Normandy. In doing so, Christofle combines tradition and expertise from almost 200 years of company history with the highest quality, elegance and zeitgeist in its exquisite products.
