Product information "Coffee Pot 1.15 l 2D ebony wood sterling silver"

Georg Jensen's very first tea and coffee set takes a number of figures from nature and combines them into a new organic form. Low and stout, with toad's feet and a magnolia blossom on top this merging of elements was typical of Georg Jensen's work with flora and fauna.

Ebony wood is a very hard type of wood. The wooden carver makes each handle especially for the individual pot and creamer. The socket – the small piece where the handle is attached - is handmade and thus may vary slightly from pot to pot - it may be only a 1/10 of a millimetre – but still each handle must be fitted specifically for the individual pot.

Height: 21 cm

Capacity: 1.15 l

Design year: 1905
