## Product information "Cufflinks sterling silver 925"

-Materials: Sterling Silver

-Measurements: L: 250 mm

All truly stylish men know that it's the details that really matter. Designer cufflinks are the perfect finishing touch to a dress shirt and add perhaps an element of luxury that whispers rather than shouts. The abstract figure eight form of these elegant cufflinks was inspired by the mathematical symbol for infinity so can also be seen as an expression of endless love, making them the perfect gift for the man in your life.

Danish born Regitze Overgaard is recognised as a true master of modern Scandinavian design. Her use of organic shapes and natural forms is great example of understated minimalism and gives her work a timeless appeal.

The inspiration for the Infinity collection is not only the number 8, but also the mathematical symbol for infinity. The softly wavy limbs and the graceful flowing organic lines symbolize endless possibilities and remind of the past, while at the same time looking firmly into the future ..
