Product information "Cooking lid small 22 cm stainless steel"

mono multitop is a wide range cooking revolution. Due to its special curved shape mono multitop lid fits many different pot sizes. The two versions (22 cm and 26 cm) cover the entire range of common pot diameters. The side handle and the lid's curved shape create a space that can be used in a variety of ways, for holding cooking utensils while cooking or for setting aside some chopped vegetables. mono multitop also helps creating space when not in use by being stored either stacked or hung up. The silicone coating on the underside allows the pot to be opened seamlessly and with a soft touch. The handle and lid are made of stainless steel which makes mono multitop dishwasher safe.

Designer: Harald Knauf

Diameter: 22 cm
