Product information "Placemat 37x44 cm Hippo sand"

Manufacturer: LindDNA
Designatin: Placemat Hippo
Serie: Curve L
Color: sand
Dimensions: 37x44 cm
Material: leather, rubber

Hippo is one of LIND DNA's strongest structures. It is developed with inspiration from the world of animals and its characteristic structure with different depths, creates a beautiful play between bright and darker shades across the surface. The material is 1,6 mm thick and consists of 80% core leather and 20% natural rubber.

The bedrock of most of our designs is OEKO-TEX® certified, recycled leather. Sourced from the surplus production from the furniture and fashion industry, the vegetable-tanned core leather is first granulated, and then pressed together with natural rubber from trees. The result is a recycled leather quality, consisting of 80% core leather and 20% natural rubber – a material that is at once incredibly durable, water resistant as well as easy to clean. Lastly, the leather is dyed with water-based colour and decorated with beautiful surface structures and patterns.
