Christofle, Oh, ice tongs

The 18 cm long ice tongs made from high-quality stainless steel are part of the modern Oh series from Christofle. Inspired by nautical worlds, the series combines contemporary design with simple functionality. The circular cutouts on both sides of the tongs not only serve as a maritime design element symbolizing portholes. They also make it easier to grip the ice cubes – for the stylish cooling of drinks on boat trips or at garden parties. For cool replenishment, the ice tongs can be optimally combined with the ice bucket or the Champagne or wine coolers from the series.

About Christofle

Whether it's in the garden, on the terrace or on the boat – the Oh de Christofle series makes every outdoor experience a stylish success. Clear lines and contemporary design meet maritime details. The round handles are reminiscent of eyelets or portholes of prestigious yachts. This design feature also makes the products particularly functional. As a result, in yet another series, Christofle again creates the perfect synergy of outstanding forms with easy handling and, in the spirit of the name of the collection, leaves an enthusiastic "Oh".

The traditional French company Christofle is a master in the processing of silver. With passionate craftsmanship and perfection, the luxury brand produces exclusive cutlery, as well as tableware, jewelry, accessories, barware and home decoration in its manufactory in Yainville in Normandy. In doing so, Christofle combines tradition and expertise from almost 200 years of company history with the highest quality, elegance and zeitgeist in its exquisite products.
