"When you wear the OFFSPRING pieces they should become a part of your body. They should empower you when you wear them and give you confidence. They should give you strength when you go out into the world," says Jacqueline Rabun, the designer behind the collection.

The OFFSPRING ring is organic and classic in its appearance. It is inspired by a simple egg shape, which carries a lot of symbolism like birth, and the hope of a life filled with beautiful adventures.

The overarching theme behind the entire OFFSPRING collection is the story of mother and child, and the unconditional love and unbreakable bond that exists between them.

The OFFSPRING ring is made from sterling silver.
