Two irregular organic shapes in silver and gold are interlocked in a form that symbolises the unbreakable bond between mother and daughter, lovers, friends or siblings. The Offspring necklace has a strong emotional resonance that adds an extra layer of meaning to the simple minimal beauty of its design.

Created for Georg Jensen by Jacqueline Rabun, the Offspring collection is both a masterclass in Scandinavian style but also a shining example of the way that jewellery can take its place in our hearts and lives too.

The outer ring of the pendant is made from sterling silver whilst the smaller ring from 18 carat rose gold giving the two pieces their distinct but similar personalities. The rings hang from a fine silver chain that can be adjusted in length.
