Product information "Citrus Press"

Manufacturer: Ankarsrum

Designation: Citrus Press

Material: plastic

With the citrus press you can press oranges, lemons, limes and grapefruit.

The citrus press consists of a transparent container/bowl and a white citrus press reamer.

The trough in the citrus press prevents the bitterness of the centre of the citrus fruits from ending up in the juice and affecting the taste.

The strainer around the citrus press catches any seeds and the flesh of the fruit.

Citrus container/bowl has a 1.2 litre capacity and is made of SAN plastic, BPA free.

The citrus press fits Assistent models N1-N30.
