Product information "Hygrometer 10 cm steel/white"

KOPPEL—fundamental values of Scandinavian design

KOPPEL first began designing timepieces in 1978; from there he expanded his offerings to include weather implements and other practical pieces

Designer Henning Koppel was one of the leaders of Danish design in the post-war period. He led the movement to mix functionality with cutting-edge design.

The KOPPEL hygrometer measures atmospheric humidity with remarkable precision. For anyone who loves the outdoors, this is a great tool as well as an attractive decoration. Combine it with the other parts of the KOPPEL weather stations for the most accurate readings on your local weather conditions.

Materials: Stainless steel, ABS plastic

Measurements: 10 cm

Discontinued model – While stocks last!
