Product information "Attachment for Wall Clocks, Baro-/Thermometer 10 cm"

HOLDER FOR HENNING KOPPEL ITEMS

Henning Koppel was one of the most prolific and influential Georg Jensen collaborators. During a career that spanned five decades, he was responsible for creating much of what we have come to think of as Danish design.

In keeping with his reputation as the father of functionalism, Koppel created a number of clocks and weather stations whose sleek shapes were perfect for indoor or outdoor use. The new HOLDER can be used with any of the 10cm items and is an easy way to bring Koppel's signature style to any shelf, desk or table top.

The HOLDER lets you display Henning Koppel's clocks, barometers, hygrometers and thermometers on any surface.

Height: 9.81 cm

Ø: 6,6 cm

Design year: 2010
