Dishwasher-safe at low temperatures

Crafted by hand

Sieger by Ichendorf, Stand Up, digestif glass 7 cm, smoke

The hand-crafted digestif glass from the Stand Up series from Sieger by Ichendorf surprises with its innovative dynamics and elegant design. Regardless of whether they're filled or empty, the pieces from the collection rock to and fro on their precisely curved base that touches the table in less than one square millimeter – like an elegant ballerina. This makes the glasses dance in a humorous fashion, transforming the enjoyment of water, juices, coffee and tea or alcoholic beverages into a particularly eye-catching experience. The hand-blown, smoky gray crystal glass is also available in transparent as well as other sizes, and has a height of 7 cm and a diameter of 5.6 cm. Practically, it is also dishwasher-safe at low temperatures.

About Sieger by Ichendorf

Sieger by Ichendorf represents the symbiosis of two leading German manufacturing: Exceptional designs from the premium brand SIEGER meet the sophisticated manufacturing expertise of the brand Ichendorf Milano. The pieces from the 2021 collaboration thereby reflect modern gastronomy with the highest quality materials – with a touch of humor and the lightness of innovative glass objects. Known for their cooperation with the Fürstenberg porcelain manufactory, it is impossible to imagine restaurants and domestic dining culture without the designs from the brothers Christian and Michael Sieger. The Ichendorf brand, which has been producing contemporary glass objects since the early 20th century and founded a style center in Milan in 1990, also manages to raise the master art of glassmaking to a new level of inventive creations time and again.
