Product information "Corundum Whetstones #3000 fine"

The corundum whetstones with #3000 and #6000 grit are designed to further refine the cut of the diamond side of the sharpener. When simply screwed onto the sharpener, you can quickly sharpen your high-quality kitchen knives with fine grit to maximum sharpness. The stones can be used without water. When the sharpening process is completed, the knife is wiped over the HORL® Leather to achieve the final sharpness.

This item is not compatible with the HORL® 2 CRUISE.
