Klimchi, Hobnail, jug 1 l light blue

The dishwasher-safe jug is part of the Hobnail collection by Klimchi and is a real eye-catcher with its avant-garde design. Manufactured with the highest quality standards, the modernly shaped, hand-blown jug made of lead-free, light blue crystal glass offers a capacity of up to 1 liter. The jug is also not only a design object, but also very practical – the tapered handle offers a comfortable grip, while the lip on the spout holds back ice cubes. Whether as a carafe or vase – the droplet-shaped structure proves that minimalism and exceptionality form a successful partnership. The jug is available in a larger version as well as a nuanced color palette and brings radiance to every interior setting.

About Klimchi

The characteristic Hobnail collection from Klimchi creates a combination of contemporary and nostalgic shapes and colors. The hobnail structure is reminiscent of water droplets that form an interplay of light reflections and color nuances.

Klimchi – a name that is as memorable as the extraordinary glassware behind it. Manufactured in the family glass factory in Kamenický Senov in the Czech Republic, known as the Mecca for glassmaking, Klimchi has been offering products made from highest-quality Bohemian glass since 1905. This is where contemporary design, harmonious color nuances and precision craftsmanship come together.
