## Product information "Watch Autumn Automatic IP brown"

The model "Autumn" is a tribute to autumn. The warm tones and diamond dust emphasize the harmonious appearance.

A homage to nature – by "Alexander Shorokhoff

One of the most famous models of the Alexander Shorokhoff watch manufactory is the "Winter" watch. This model has been inspiring the international public for years. But not only that, because in 2017 the model has also convinced the expert jury of the German Design Award and bears the title "Special Mention 2017".

The time was now ripe to think about designing other seasons. In order to present autumn in all its glory, many brown and golden tones are needed. The color palette of autumn offers a large selection of many different shades. Also a dark orange fits perfectly into the warm color spectrum. And these are exactly the colors Alexander Shorokhov has chosen to create his new model "Autumn".

The entire design is based on the successful automatic watch "Winter", but has been color-matched and thus drastically changes its appearance. The leaf design is refined in yellow-gold, the diamond dust is underlaid with orange color. The case and hands are plated in a warm chocolate tone. The stingray leather strap in turn shines in a bright red. This emphasizes the new appearance and gives it a very harmonious look.

But that's not all – the rotor of the Swiss automatic movement is also provided with a hand-engraved golden maple leaf to manifest the theme in a final touch. This gives the watch an exceptional appearance and will enhance every wrist to the highest level.
