Product information "Allround glass (2 pcs.)"

The all-round glass with that certain something

The all-round glass Vervino captivates with its stylish aesthetics and unique shape. The interplay of the components that make up the characteristics of a grape variety are shown to their best advantage in this glass. The classic depth allows the aromas of a wide range of grape varieties to develop optimally and expresses the special characteristics and facets of a wine.

The effervescence point at the bottom of the Vervino Allround glasses ensures that the carbonic acid bound in the drink is released and moves to the surface in the form of fine air pearls. Once on the palate, the entire aroma of the drink unfolds.

An aesthetic all-round glass

Tritan crystal glass combines functional elegance and natural material. It is shatterproof and resistant to scratches and therefore also suitable for cleaning in the dishwasher. The height of the glass is 230 millimetres and the weight 234 grams, which makes it pleasantly light in the hand.
