Product information "Speaker EMBERTON II Cream"

EMBERTON II

Emberton II now packs an even bigger punch than before. The bestselling Marshall outdoor speaker now comes with 10 more hours of playtime than its predecessor so you can enjoy 30+ hours of listening. This new generation has Stack Mode so you can amplify your session by connecting to other Emberton II speakers. There's also the addition of app support, giving you more control over your sound. Two 2" full range drivers, two passive radiators and True Stereophonic mean this wireless speaker brings you the heavy Marshall sound you know and love.

SUPERIOR SIGNATURE SOUND

Emberton II delivers sound that is rich, clear and loud, like the artist intended. Experience absolute 360° sound with True Stereophonic, a unique form of multi-directional sound from Marshall – where every spot is a sweet spot. By separating out the spatial content of stereo recordings, Emberton II produces a sound much larger than its size and outperforms most speakers in its class.

30+ HOURS OF PORTABLE PLAYTIME

Emberton II offers 30+ hours of portable playtime on a single charge. Its compact size, rugged durability and reliable playtime make it perfect to take with you. When you're out of battery, Emberton II won't keep you waiting long – plug in your speaker and return to full battery in 3 hours.

ROADWORTHY IP67-RATED DESIGN

Emberton II is tough and resilient, boasting an extremely durable and easy-to-use design that features an IP67 dust- and water-resistance rating. It won't let rain or dirt get in the way of your music.

PAIR, PLAY AND BRING THE LOUD

Emberton II won't slow you down with a lengthy set-up—pair, play and let the good times roll. Download the dedicated app if you want to find the right sound with equaliser presets, and to keep your speaker up to date with Over-the-Air (OTA) updates.

HOST A MULTI-SPEAKER SESSION WITH STACK MODE

Emberton II has been powered up with Stack Mode. Amplify your sound with a multi-speaker session by connecting your speaker to other Emberton II speakers. Create a sound as big as your imagination..
