Product information "Steak Knife Set (2 pcs.) bog oak"

Bog oak is not a species of its own: in fact, these are subfossil oak trunks that are up to 5,000 years old and are located in northern German moors and watercourses. If such a trunk is found and recovered in a bog, it must first be dried in a complex drying process that takes several years before it can be processed. The colour varies between brownish and bluish shades of black.

Blade Length: 11.5 cm
